NCPC File No. 1485

SEP 16 1977

M E M O R A N D U M

TO : Admiral Stansfield Turner
Director of Central Intelligence

FROM : David M. Childs, Chairman

SUBJECT: Transmittal of Federal Capital Improvements Program for
for National Capital Region for Fiscal Years 1978-1983

On behalf of the Commission, we are pleased to forward a copy of the Federal Capital Improvements Program for the National Capital Region, Fiscal Years 1978-1983, adopted by the Commission on July 7, 1977. This is the first Federal Capital Improvements Program for the National Capital Region to be recommended by the Commission pursuant to Section 7.(a) of the National Capital Planning Act of 1952, as amended. It was formally transmitted to the President and the Director of the Office of Management and Budget on August 31, 1977.

The Program contains the Commission's recommendations to the Office of Management and Budget and the affected Federal agencies on those Federal land acquisition and development proposals which the Commission believes should be given priority and funded in the next six years. It reflects the Commission's desire to fully implement this section of the Act as part of its efforts to improve and strengthen Federal planning and programming in the National Capital.

We believe that the establishment of a Federal capital improvements programming process involving the annual review and revision of the six-year program is a major milestone in the history of planning for the National Capital. It will provide the affected Federal agencies, the Office of Management and Budget and the Commission with an effective tool for coordinating Federal development proposals with related capital improvements programs by local and state governments and regional agencies thereby improving inter-governmental cooperation within the Washington Metropolitan area.

Your agency was not included in the FY 1978-1983 Program because it did not have any land acquisition and/or development proposals for the Region in the next six years. If your agency plans to initiate any such proposals in future years, it would be appreciated if you would notify the Commission so that they can be considered for incorporation in the Federal Capital Improvements Program at the appropriate time.

Additional copies of the Program are available from the Commission's Office of Public Affairs, 1325 G Street, N.W., Washington, D.C. 20576, telephone 724-0174
